

Message from IEEE PES President

On behalf of the IEEE PES Governing Board, it is my honor and privilege to welcome everyone of you to the 2023 IEEE PES 15th Asia-Pacific Power and Energy Engineering Conference (APPEEC 2023) on "**Transition towards Carbon Neutrality, Sustainability and Flexibility for Future Energy**" during 6-9 December 2023 at Chiang Mai Marriot Hotel, Chiang Mai, Thailand

APPEEC has consistently been a hub of innovation and knowledge exchange in the field of power and energy engineering. Your presence at APPEEC 2023 signifies the profound commitment of IEEE PES to advancing the frontiers of power and energy engineering. I look forward to your insights, guidance, and inspiration, which will undoubtedly enrich the discussions and collaborations at this conference.

As we gather to explore the latest advancements, share best practices, and address the critical challenges in our field, your expertise and leadership will undoubtedly serve as a beacon, guiding us toward a brighter and more sustainable energy future.

Once again, welcome to APPEEC 2023. May your presence and insights inspire us to achieve new heights of excellence and innovation in the power and energy sector.

Enjoy in Chiang Mai!

Jessica Bian - President, IEEE Power & Energy Society (PES)
