

Message from Co-Chair

Hello everyone!

Welcome to the **2023 IEEE PES 15th Asia-Pacific Power and Energy Engineering Conference (APPEEC 2023)** during 6th - 9th December 2023 in Chiang Mai, Thailand.

On behalf of the Electrical Engineering Academic Association (Thailand) or EEAAT, we have a great pleasure to collaborate with IEEE Power & Energy Society Thailand Chapter to be a part of APPEEC 2023. We strongly believe that having APPEEC for the first time in Thailand will inspire faster development of Power & Energy Engineering in the country as well as in the region, especially in those countries where Power & Energy Engineering has not yet been a specialty.

We ensure that Thailand is a well-suited destination for APPEEC 2023 as it is known to the world as the land of smiles and one of the most destinations. Most importantly, Thailand is second to none when it comes to a unique culture, Thai hospitality, professional services, and value for money.

We would like to deeply express our sincere appreciation for all participations who play important roles on the great effort on their contributions to the conference. We hope you find APPEEC 2023 to be a good opportunity to meet people and make yourself known by exchanging experiences in both technical and non-technical information as well as to be a place to end up your hard-working year in Chiang Mai, Thailand.

APPEEC 2023 General Co-Chair

Athikom Roeksabutr - *President, Electrical Engineering Academic Association (Thailand)*
